

It can be different.

Fact: This year, about 565,650 Americans are expected to die of cancer.

Fact: Scientists report environmental factors (as opposed to hereditary) account for an estimated 75-80% of cancer cases and deaths in the U.S.

Fact: In the U.S. about two classrooms full (or 46 children) are diagnosed with cancer every school day.

Help reduce unnecessary and preventable environmental exposures that are suspected and known to be linked to cancer.
